TEDDY

EASY CLEANING Its die-cast, rounded design and no external screws or openings make TEDDY easy to clean.

ATTACHMENT DRIVE TEDDY is also available in white with an attachment drive for mounting a stainless steel meat mincer.

SAFETY SCREEN A fixed safety guard and a detachable filling tray and splash guard protect both the operator and the ingredients, while allowing the mixing process to be monitored.

EFFECTIVE TOOLS TEDDY comes with a 5-litre stainless steel mixing bowl with a lid, a wire whip made of 2.5 mm wire, a beater and a specially designed hook which ensures dough is kneaded and turned to perfection. All accessories are made of stainless steel and are dishwasher-safe.

AFFIXED BOWL The bowl is held effectively in place during operation by a single lever.

EASY OPERATION Speed is infinitely adjusted using the pass-through control knob, which allows TEDDY to be operated from either side. The knob is also the click-lock and hinge point when the mixer head is tilted back to change tools.

GOOD STABILITY A wide footprint and suction cups ensure the mixer is stable during operation.

The capacity chart shows the maximum capacity for the specific machine. The testing has been conducted with standard equipment. Therefore, the use of special tools, can result in a different outcome. Always start the machine at the lowest speed. Increase the speed subsequently, taking the product being mixed into account.

Symbols explainer - Recommended actions:

- + = Apply scraper, for the best and most efficient result
- = Always make sure the ingredients are room temperature/soft. If not, this can damage the tools.
- = Recommended to work on low speed.
- = Recommended not to go above medium speed.
- AR = Absorption Ratio (moisture in % of dry matter)
